## THE MISSION STATEMENT OF THE CHAPPAQUA SCHOOLS

The mission of the Chappaqua Schools is to create a community for leaming, where students, parents and staff are joined in the pursuit of academic excel lence and personal growth in a caring environment. We seek to devel op each student's full potential through a chal lenging curriculum, a di versified faculty and a commitment to intel lectual freedom. We will teach basic skills, foster creative and critical thinking and provide a foundation for life-long learning. We will nourish our students' emotional lives and guide their social development, instilling in them an appreciation of self-worth, of individual difference and of global interdependence. We will help them leam how to manage freedom and to act ethically so that each may become a responsible, contributing member of society.

## Dear Community Member,

The Chappaqua School District is fully committed to continuing its tradition of educational excellence while managing its resources in a difficult economic climate. The budget process includes both a thorough examination of our educational programs and practices as well as the operations and infrastructure of the district.

The 2010-11 budget was developed based on a series of operating standards.
Ensure that focused and research-based professional development initiatives are available for faculty.
Maintain current class size ratios at elementary schools.
Meet existing class ratios at the secondary level.
Maintain existing structures at the middle school level.
Maximize efficiencies in scheduling personnel wherever possible.
Offer the same breadth and depth of course offerings and extra-curricular activities at Greeley.
Ensure that district facilities continue to be clean and well-maintained.
Ensure that school and district offices function efficiently and effectively.
Declining and shifting enrollment in our schools enabled us to reduce 6.9 teaching positions without impacting the student classroom experience. Additional personnel reductions included 3.5 positions in non-instructional areas. Non-personnel savings have been realized in the areas of operations and maintenance, technology, athletics, and supplies/equipment. On April 22, the board unanimously adopted a budget of $\$ 109,391,348$, an increase of $1.9 \%$ over the current year. The Board allocated \$1,365,139 from its reserves funds to offset 2010-11 expenses.

Schools that embrace the value of academic excellence can only engage in a process of continual improvement if they have both the human and financial resources to do so. This budget gives an excellent school district the necessary resources to become even better.

Thank you for your support in ensuring that Chappaqua continues to be in the forefront of educational excellence.

Sincerely,
$\operatorname{cit} x$
David Fleishman
Superintendent

## NEW YORK STATE REPORT CARD

## The New York State School Report Card <br> Fiscal Accountability Supplement <br> for <br> Chappaqua Central School District

New York State Education Law and the Commissioner's Regulations require the attachment of the NYS School Report Card to the public school district budget proposal. The regulations require that certain expenditure ratios for general education and special education students be reported and compared with ratios for similar districts and all public schools in New York State. The required ratios for this district are reported below.

| 2007-2008 School Year |  | General Education | Special Education |
| :--- | :--- | :---: | :---: |
| This <br> School <br> District | Instructional Expenditures | $\$ 58,811,414$ | $\$ 15,652,254$ |
|  | Pupils | Instructional Expenditures Per Pupil | $\mathbf{4 , 3 8 9}$ |
| Similar <br> District <br> Group | Instructional Expenditures | $\mathbf{\$ 1 3 , 4 0 0}$ | $\mathbf{4 8 4}$ |
|  | Pupils | $\$ 4,589,008,265$ | $\$ 1,604,704,726$ |
| All <br> Public <br> Schools | Instructional Expenditures | Pupils | 400,054 |
|  | Instructional Expenditures Per Pupil |  | $\mathbf{\$ 1 1 , 4 7 1}$ | $\mathbf{5 1 , 7 9 4}$ |
|  | Similar District Group Description: Low Need/Resource Capacity |  | $\mathbf{\$ 3 0 , 9 8 2}$ |  |

 expenditures include amounts for instruction of students with disabilities in a general education setting. District expenditures, such as transportation, debt service, and district-wide administration, are not included.

 another district. Students attending the State schools at Rome and Batavia, private placements, and out-of-state placements are included
 Special education services provided in the general education classroom may benefit students not classified as having disabilities.

| 2007-2008 School Year | This School District | Similar District Group | All Public Schools |
| :---: | :---: | :---: | :---: |
| Total Expenditures Per Pupil | $\mathbf{\$ 2 2 , 5 9 2}$ | $\mathbf{\$ 2 0 , 3 9 4}$ | $\mathbf{\$ 1 8 , 3 6 5}$ |

Total Expenditures Per Pupil is the simple arithmetic ratio of Total Expenditures to Pupils. Total Expenditures include district expenditures for classroom instruction, as well as expenditures for transportation, debt service, community service and district-wide administration that are not included in the Instructional Expenditure values for General Education and Special Education. As such, the sum of General Education and Special Education Instructional Expenditures does not equal the Total Expenditures

The numbers used to compute the statistics on this page were collected on the State Aid Form A, the State Aid Form F, and the School District Annual Financial Report (ST-3).

## GLOSSARY

This Glossary contains definitions of terms used in this guide and such additional terms as seem necessary to common understandings concerning financial accounting procedures for schools. Several terms which are not primarily financial accounting terms have been included because of their significance for school financial accounting. The glossary is arranged alphabetically with appropriate cross-referencing where necessary.

## Accounting System

The total structure of records and procedures which discover, record, classify, and report information on the financial position and operations of a school district or any of its funds, balanced account groups and organizational components.

## Appropriation

A legal authorization to incur obligations and to make expenditures for specific purposes.

## Assessed Valuation

A valuation set upon real or other property by a government as a basis for levying taxes.

## Board of Education

The elected or appointed body which has been created according to State Law and vested with responsibilities for educational activities in a given geographical area. These bodies are sometimes called school boards, governing boards, boards of directors, school trustees, etc. This definition relates to the general term and covers State boards.

Bond
A written promise, generally under seal, to pay a specific sum of money, called the face value, at a fixed time in the future, called the date of maturity and carrying interest at a fixed rate, usually payable periodically. The difference between a note and a bond is that the latter usually runs for a longer period of time and requires greater legal formality.

## Bonds Issued

Bonds sold.

## Bonds Payable

The face value of bonds issued and unpaid.

## Budget

The planning document for each school providing management control over expenditures in general fund, special revenue fund, capital fund, food service fund, and pupil activity fund.

## Budget Cal endar

## Budgetary Contro

The control or management of a governmental unit or enterprise in accordance with an approved budget for the purpose of keeping expenditures within the limitations of available appropriations and available revenues.

## Buildings

A fixed asset account which reflects the acquisition value of permanent structures used to house persons and property owned by the local education agency. If buildings are purchased or constructed, this amount includes the purchase or contract price of all permanent buildings and fixtures attached to and forming a permanent part of such buildings. If buildings are acquired by gift, the account reflects their appraised value at time of acquisition.

## Cash M anagement

The management of cash necessary to pay for government services while investing temporary cash excesses in order to earn interest revenue. Cash management refers to the activities of forecasting the inflows and outflows of cash, mobilizing cash to improve its availability for investment, establishing and maintaining banking relationships, and investing funds in order to achieve the highest interest and return available for temporary cash balances without jeopardizing principal.

## Chart of Accounts

A list of accounts systematically arranged, applicable to a specific concern, giving account names and numbers. A chart of accounts, accompanied by descriptions of their use and of the general operation of the books of account, becomes a classification or manual of accounts: a leading feature of a system of accounts.

## Classification, Object:

As applied to expenditures, this term has reference to an article or service received; for example, salaries, employee benefits or supplies.

## Coding

## Dedt Service

Expenditures for repayment of bonds, notes and other debt.

## EmployeBenefits

Amounts paid by the school system in behalf of employees; these amounts are not included in the gross salary, but are over and above. Such payments are, in a sense, overhead payments.
